About Vancouver Clinic

Vancouver Clinic is the largest independent, physician-owned, multispecialty medical practice in the Northwest. With more than 500 clinicians and 2,100 employees, Vancouver Clinic is also one of the largest employers in the region. Founded over 85 years ago, Vancouver Clinic offers comprehensive primary, specialty, surgical, and urgent care.

Vancouver Clinic continues to build facilities and add services throughout Southwest Washington and Oregon to serve our rapidly growing population and to remain the region's top private source of health care services. Our reputation for health care excellence and a collegial atmosphere allow us to attract top-quality clinicians from around the nation.

Caring for people is our first priority

At Vancouver Clinic, we strive to treat every individual with kindness and empathy and to act with integrity in all we do. As a physician-led group, we trust in evidence-based care and consider it to be fundamental to delivering excellence. We believe that good health is vital to a strong and vibrant future—for individuals and our communities.

Primary Care Delivery Model Innovation

- Three principle models currently practiced:

1. **"Traditional"** IM primary care

- 14-16 patients per day
- Average RAF = 1.2 (complexity)

2. **"Adult Medicine"** Value-Based Care

- 8-12 patients per day
- Average RAF = 1.7

3. **"Virtual Primary Care"**

- Any time of day – you pick the time
- Bridge, Urgent Care, and Post-acute

VANCOUVER CLINIC®

Recap: Why LSC IMR?

- Continue your training in the beautiful PNW
- Opportunity to participate in innovation in primary care and easily land a well-balanced career with inpatient + outpatient options
- Unique continuity clinic design
- Unopposed access to stellar clinical leaders and procedural opportunities
- Cutting edge of care delivery innovation and evidence-based medicine
- Become an expert in high-value cost-conscious care

Applying to the Program

- Submit via ERAS
- The earlier the better – we screen the last weekend in September
- You must have passed USMLE/COMLEX Step 1 and 2. It is recommended that applicants have step 2 scores prior to interviewing.
- Reach out to Dr. Craig Riley at criley@tvc.org with any questions.
