Providence Portland Medical Center

- Unique blend of academic rigor and community-based training
- High faculty-to-resident ratio, ensuring personalized mentorship and support
- Emphasis on comprehensive clinical experiences across outpatient, inpatient, and subspecialty settings, fostering well-rounded physicians
- Strong educational didactics, experiential learning, and a focus on evidence-based medicine and quality improvement
- Commitment to compassionate care and professional development makes us an excellent choice for those seeking to become skilled, empathetic internists, whether they are interested in primary care, hospital medicine, or pursuing a subspecialty fellowship
