SPOKANE TEACHING HEALTH CENTER

Internal Medicine Residency Spokane

- 10 residents/year as well as 2 clinician-teacher fellows
- Focus on both breadth and depth of training providing the opportunity for residents to personalize their education to their medical interests while developing a strong foundation in general internal medicine
- Multiple opportunities to enrich the education experience, including POCUS, our primary care track, and a formal teaching curriculum
- Our graduates go on to become hospitalists, primary care physicians, subspecialists, and faculty
- We pride ourselves in helping our learners develop skills for life-long, self-directed learning
